

Motion®
MARTIN LOGAN AFX

Inspired by MartinLogan's ultra-high-end electrostatic loudspeakers, the Motion® Series was created to provide stunning sound for your ultimate-performance home theater or stereo.

MartinLogan's dedicated in-house engineers carefully crafted the Motion Series to create an extremely affordable and compact product line that seamlessly blends our exquisite Folded Motion™ transducers with powerful, compact bass technology. The result is a smooth, refined sound with stunning dynamic range and jaw-dropping clarity. Included here are just a few of the outstanding awards and accolades the Motion Series has received.

"Major audio advancements don't come often, but when they do, the effects can be astounding. Going from mono to stereo, stereo to multi-channel, and now multi-channel to object-oriented audio represents a sizable leap in performance, realism, and engagement. If you've wanted to embrace Dolby Atmos and DTS:X, but weren't sold on Atmos-enabled speakers, then doubt no more. MartinLogan's Motion AFX speakers can transform any setup and speaker system." - Theo Nicolakis
